Ordering Information

Request for separate catalogue

Ref	Contents	Amount
060201	Minisys G – 3D cell culture hydrogel	0.2 g / vial
060230	Human Stromal Vascular Fraction in cryopreservation medium	1x10 ⁶ cells
060231	Human Adipose mesenchymal Stromal/stem Cells in cryopreservation medium	1x10 ⁶ cells
060232	Xeno-free human Adipose mesenchymal Stromal/stem Cells	1x10 ⁶ cells
060233	Xeno-free human Stromal Vascular Fraction in xeno-free cryopreservation medium	1x10 ⁶ cells

060201

060233

060232

hSVF xeno-free
cultured in 2D cell
culture plasticware

hSVF xeno-free
cultured in 3D mimsys G

Osteogenesis
Alizarin red staining
of mineralized extracellular
matrix (ECM)

Adipogenesis
Oil red O staining
of lipid vacuoles

Chondrogenesis
Alcian blue staining
of ECM proteoglycan
(pellet cross-section)
